

SPECIFICATION

Rotor size	11.75 - 12.91" x 1.25" (298 - 328 x 31.8mm)
Front piston size	1.50" / 1.65" (38 / 42mm)
Rear piston size	1.26" / 1.26" (32 / 32mm)
Caliper weight	4.58 lbs. (2.1 kg)
Pad thickness	0.787 (20 mm)
Pad shapes	Pro-System - PSD.1006 Project Mu - PMU1102T20 Pagid - PAG2205
Fluid Inlet / Bleed screws	3/8" - 24

KEY FEATURES & BENEFITS

- Made in USA at our facility in Mooresville, NC
- Internal fluid passageways eliminate external bridge pipe
- Forged aerospace aluminum body for maximum stiffness at temperature
- Design optimized for ideal stiffness / weight ratio
- Radial mount provides versatile mounting options
- Electroless Nickel Plated (ENP) body for durability
- Stainless steel pistons for durability and low heat transfer
- Common pad shape readily available requires no modification

APPLICATIONS

Late model, modified, road race, rally (15" wheels)
